

Lancashire Business Environment Association

What is it?

The Lancashire Business Environment Association, or LancsBEA, is a low cost membership service that provides organisations with affordable and professional advice, support, training and legislative updates on all of the health, safety and environmental issues that affect them.

The LancsBEA is a key way of networking businesses, allowing them to form new relationships and share best practice.

This service is provided by [Groundwork Pennine Lancashire](#), the largest environmental regeneration organisation in Lancashire. Any profits generated from our services are re-invested into local community projects.

Groundwork Pennine Lancashire is accredited to ISO 9001, ISO 14001 and OHSAS 18001 and was recently crowned Social Enterprise of the year at the Red Rose Awards 2011

“We have been members of the LancsBEA for many years now and will continue to be so for many years to come - it’s an all round great service! Being a member gives us free expert advice on environmental issues, access to first class subsidised training courses and fantastic opportunities to network with other local businesses and share knowledge and best practice. With all these benefits - why wouldn’t you become a member?”

Debbie Hall, Herbert Parkinson
